MORaine HOUSE RULES AND REGULATIONS

GENERAL CONDUCT

Rules and regulations are the view of the Moraine House committee and are enforced by the director and assistant director on duty. Rules and regulations may be amended or updated as needed. It is the responsibility of the resident to adhere to and understand the rules and regulations. It is also the responsibility of each resident to inform staff of any situation beyond the residents' control that could cause an infraction of these rules.

The Moraine House staff will not beg or plead with any resident to follow the rules and regulations. We will only ask one time that a task be done or a rule followed. Insubordination will not be tolerated. If this appears to be too much to ask, we will assist any resident in making other living arrangements. Repetitive rule violations will not be tolerated, and are grounds for immediate dismissal. There are no exceptions.

EVALUATIONS

Every Thursday the screening committee evaluates each resident concerning his stay at Moraine House. A tally is kept concerning any demerits given. Any four (4) demerits given in a thirty day period is cause for termination of the resident within twenty-four (24) hours upon approval of the house committee. Automatic termination offenses are immediate. The director or his assistants can issue demerits. An infraction of any rule must be reported to the staff. If the resident feels the demerit was issued unfairly and without merit he can present his case to the house committee.

RENT AND FEES

Provisions for the payment of rent must be made for the resident's length of stay. Rent is due no later than 10:00 am Saturday. A non-refundable, non-transferable screening fee is due prior to the screening appointment for admission into Moraine House. The fee is \$35.00, cash, local check or money order, made payable to "Moraine House Inc". Residents are responsible for all program fees associated with their stay at Moraine House.

LENGTH OF STAY

The normal term of residency is 180 days. Residency beyond 180 days is based on the resident's special circumstances, and the

availability of space. For the first seventy-two (72) hours in the house there are no visitors allowed with the exception of an approved sponsor. Within the first seven days of residency, an essay, consisting of at least 100 words will be written and handed into the house director, relating how this experience (coming into the house) has effected your personal growth.

SPONSOR

A resident is required to have an approved, local, active AA or NA sponsor within two weeks, or termination of stay will be effected. All conversations with your sponsor are confidential. Staff will not be concerned with what you talked about, only in the fact that you talked. If you cannot get along with your sponsor, and need to change, you may do so. You must provide staff with your sponsor's name.

WEEKEND PASSES

All passes will begin on Saturday after 10:00 am and after the weekend chore has been completed and inspected. Passes will end at 8:00 pm Sunday. To be eligible for a pass, a resident must have thirty days of residency at Moraine House by the Thursday prior to the day of the pass. If a resident is working any shift on a Saturday, he must return from work before signing out on pass. Resident's passes are a privilege, not a right. Passes depend upon your actions during the preceding week and your plans for the pass. When signing out on pass a phone/contact number must be given to staff, failure to provide a number may result in the pass being withdrawn. Residents who have been granted passes are encouraged to use them, however residents who choose to remain at Moraine House will adhere to all house rules and regulations including curfew and chores.

DOCTORS

A resident should have his own doctor and dentist or be willing to accept one referred by Moraine House should the need arise.

THE HOPEFUL SIDE OF ADDICTION

MISSION STATEMENT

Those who struggle with drug addiction don't set out to destroy themselves and everyone and everything in their path--rather, these disastrous consequences are the effect of the vicious cycle of addiction.

Moraine House is a 501 (C) 3 post-treatment recovery home for men over the age of 18. We live and work on personal growth, while abstaining from all illicit drug and alcohol use. Moraine House has been providing this service since 1975.

Asking for help is the most crucial first step anyone can take on the road to recovery. We treat only those willing to surrender to their addiction. Upon entry to the House, residents begin treatment specific to their drug of choice. Residents begin an assessment process and an individualized treatment plan evolves from this assessment process. Treatment is based on the "12 Step" philosophy and relies on the assumption that spirituality is the basis of long-term recovery. The staff at Moraine House works closely with the clients to address the spiritual needs of each resident nondenominationally. One of the keys to our success is the therapeutic value of addicts and alcoholics working with other addicts and alcoholics, admitting there is a problem; seeking help; engaging in a thorough self-examination; confidential self-disclosure; making amends for harm done; and eventually helping other substance abusers who want to recover.

We endeavor to instill in our residents a healthy value system which includes:

1. Learning responsibility to self and others
2. Sensitivity to self and others
3. Accountability to self and others
4. How to make appropriate decisions and choices
5. Self discipline and manageability

Recommended length of stay is 180 days with each case being reviewed weekly by the staff and the screening committee.
